

Key Features

- 200 W Power Handling
- 5" Coaxial speaker
- Cabinet built from high density poplar plywood
- XLN4 connector (in) / Euroblock (in/out).
- 4x M8 mounting points
- Available in black and white colours.
- U bracket included.
- Dimensions 175 x 175 x 165 mm | 2.2 kg.

Applications

-  Retail & Commerce
-  Hospitality
-  Education
-  Houses of worship
-  Sports Venues
-  Industry & Corporate

The MINO 5 CX E2 is a passive coaxial loudspeaker with 200 W and made of high density plywood. It consists of a 5" coaxial loudspeaker and has Euroblock connections and XLN4 connector. This model is perfectly suited for the musical ambience of a multitude of spaces. The MINO E2 speakers substantially improve the sound quality and have been specifically designed for installation and, as part of their refurbishment, the enclosures have been upgraded with multiple mounting points.

In addition, the two available colours (black and white) make it easy to integrate the loudspeakers into any installation, whether it is a commercial space, a corporate environment or a leisure space.

Architectural & Engineering Specifications

The MINO E2 speaker series consists of four satellites (5', 6', 8' and 10' models with dedicated tweeters).

Made from wood with a durable textured paint finish, they feature multiple mounting points for versatile positioning and are available across the range in black and white finishes, ensuring they blend seamlessly into any environment, whether commercial, corporate or entertainment venue.

The Mino E2 speakers have been designed specifically for installation applications and, as part of their revamp, the enclosures have been updated with multiple mounting points, offering installers more options when deciding how to install the speakers.

This versatility ensures optimal installation in any type of environment, with a sleek design that adapts to various mounting needs. In addition, the speakers now feature both terminal and PowerCon connections, providing a professional solution that simplifies installation
